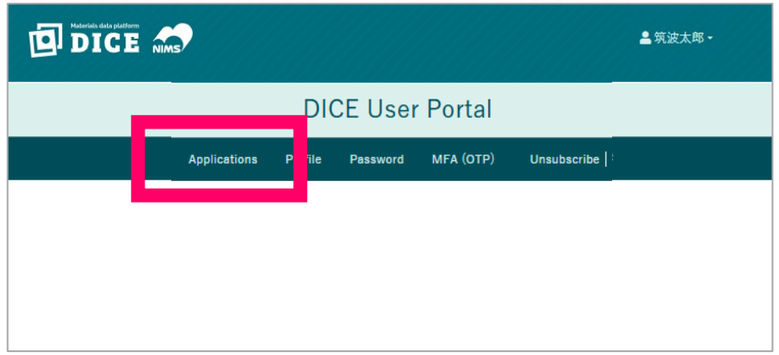
How to Access the ID Workflow System

① Access the DICE User Portal

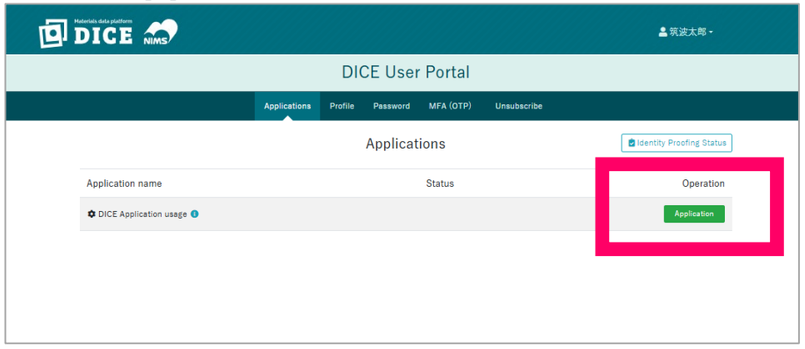
⚠️Before you begin • A DICE account is required.
If you do not have a DICE account, please register for one first.
• Access the system from a PC. Smartphones are not supported.
• Turn off your browser's automatic translation feature.

② Log in to the DICE User Portal

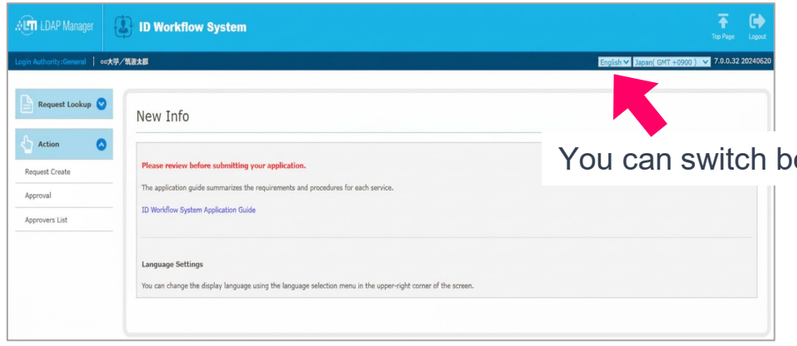
③ DICE User Portal → Click "Applications"



④ Click "Application"



⑤ ID Workflow System access complete



You can switch between English and Japanese

How to apply via the ID Workflow System: See the next page »»

ID Workflow System Application Guide

Use this system to submit applications and change requests for services available with your DICE account. Follow the steps below to apply.

STEP 1: Check the Application Procedures

You can apply for the following four services through the ID Workflow System. First, check the service details and application requirements for the service you wish to use.

MatNavi Materials Database

- Eligibility: Check the service website
- Required procedures: Domain name registration
  → Service Application (via this system)

RDE Data Accumulation and Sharing System

* The ARIM project is not covered by this system.

- Eligibility: Check the service website
- Required procedures: User registration application (via this system) + Usage application + Service application (submission of required documents)

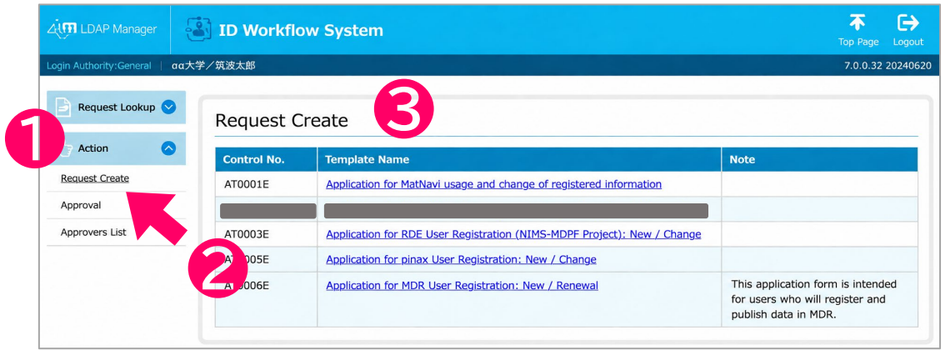
MDR MATERIALS DATA REPOSITORY Materials Data Repository

- Eligibility: Check the service website
- Required procedures: User registration application (via this system)

pinax Data Analysis and Machine Learning System

- Eligibility: Check the service website
- Required procedures: User registration application (via this system) + Service application (submission of required documents)

STEP 2: Create an Application Form



① Expand the [Action] button
② Select [Request Create]
③ Select the application for the service you wish to use, enter the required information, and submit it

⚠️ **If the application form is not displayed**
For MatNavi, domain name registration is required before applying.

🚨 **Final check before applying**
✓ Have you confirmed on the service website that you meet the eligibility requirements?
✓ Have you completed the required procedures specified for each service?
* For RDE and pinax, additional procedures are required in addition to user registration through this system. Please check the relevant service information.
